

RIVERLAND SHOWCASE EXHIBITION

VISUAL ART FROM ANU SCHOOL OF ART
FIELD STUDIES 1996 - 2007

A Field Studies Program will take place in the Riverland, SA from 6 – 15 July and from 30 September – 10 October, 2008. Creative focus will be on environmental issues. If you would like to assist or have suggestions for artist briefings please contact John Reid - 0428 319 424

The Riverland Field Studies Program and it's evaluation is part of the Engaging Visions Research Project project that aims to determine the best way to engage Murray-Darling Basin communities with visual artists to help manage natural resources and to provide creative opportunities for art production.

Engaging Visions is an initiative of The Australian National University and the Murray-Darling Basin Commission. Financially supported by the Australian Research Council
